

**Port of Newport  
Strategic Business Plan Update  
Invitation for Proposal of  
Planning Consulting Services  
Bid Due 12:00 PM September 19, 2018**

The Port of Newport is requesting proposals from consulting agencies to update the Strategic Business Plan (SBP) and the Capital Facilities Plan (CFP) for the Port.

The current SBP can be found at:

<https://www.portofnewport.com/general/StrategicBusinessPlan.pdf>

The current CFP can be found at:

<https://www.portofnewport.com/general/capital-facilities-plan.php>

The Port is searching for a consulting firm or firms that can assist in the effort to update these crucial documents that identify goals, priorities, and strategic planning guidelines for the future of the District. The consulting effort will include community outreach and facilitated conversations between the 5-person Port Commission, Port Staff, and public stakeholders. The documents above are comprehensive and detailed; an update of the SBP, and review of the projects in the CFP with several additions and reprioritizations is all that is necessary.

Best value analysis of submitted proposals will be conducted by the Port Commission. Letter proposals with a scope and estimated fee are acceptable.

Interested firms should review and become familiar with the referenced documents and submit proposals and qualifications to [dirops@portofnewport.com](mailto:dirops@portofnewport.com)
