Newport, OR 97365 Email: abretz@portofnewport.com

QUESTIONS TO: Aaron Bretz 541-961-3904

This document and its attachments becomes part of the request for proposal listed above.

Modify RFP to include:

- 1) At the mandatory site meeting held on October 10, 2018, it was requested that the Port provide more details on desired elevations and criteria for sorting material. In response to that request, the Port offers the following details:
 - a) The approximate elevation at the northeast corner of the property adjacent to the NW Natural Gas Road in approximate position 44.62857N – 124.02547 is 21'. The desired elevation starting in that corner of the property is 19', with a grade descending toward the adjacent property to the south, at which point the desired elevation is approximately 15'. The Port prefers to maintain that grade across the width of the property, but a lesser elevation is acceptable on the western side of the property in order to uniformly transition to the roadbed at the east entrance to the International Terminal. All elevations and positions are approximate.
 - b) There will be an additional amendment released no later than the close of business on October 16, 2018 that discusses criteria for sorting material.
