International Terminal Project Update

As of Thursday, July 21, Natt McDougall Company (NMC) had completed 100% of the remediation work on the SS Pasley. A bridge was built bow to bow from the Pasley to the Hennebique to bring drill rigs aboard and mount them on the Pasley's deck, to drill holes through the deck and port hull of the ship for tie back anchors. The screw anchors will go through the deck and bulkhead wall and back into the soil. The demolition plan for the Pasley has been revised. NMC will remove the forward compartment of the ship and install a bridge in that area of the cofferdam. They will then float the ship in sections and break it apart hold by hold. The concrete debris will be used to create a ramp inside the cofferdam, so the sections of the ship can be pulled up and demolished. That work will start August 15 and is scheduled for completion on or before October 8. Amendment 10 to the CM/GC contract was approved by the Port Commission in the amount of \$1,889,737.77. Savings from previous amendments will go back into the construction budget but short falls remain. Commission and staff are considering all options for potential funding to complete Phase 1 of the project.

NOAA MOC-P Homeport Project Update

The NOAA MOC-P Project was completed seven days ahead of schedule and slightly under budget. The Andersen/WCC construction site has been cleared and is being prepared for future Port use.

The NOAA research vessel Bell M. Shimada and the ACOE Dredge Yaquina have successfully taken on fuel at the new NOAA pier.

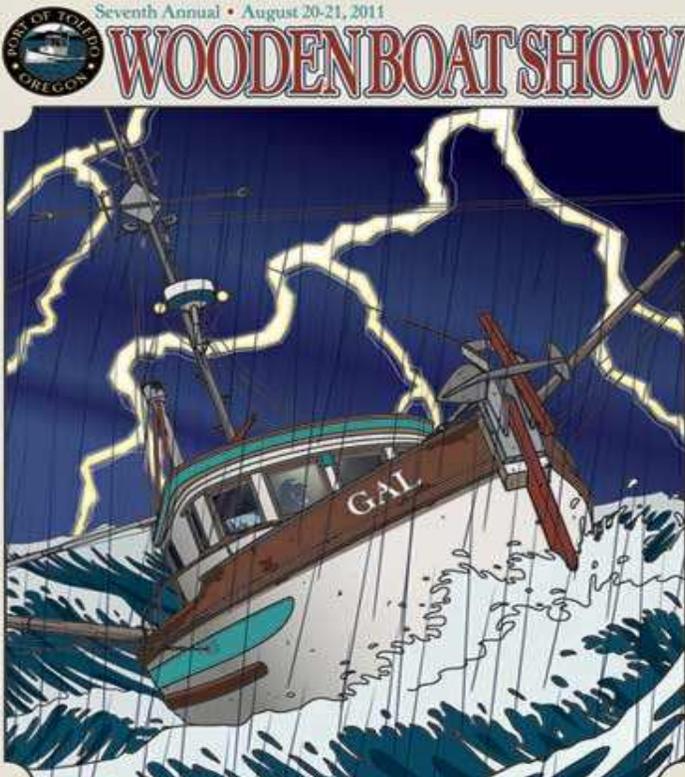

A dedication ceremony for the NOAA MOC-P facility is planned for August 20-21.

More information on the NOAA MOC-P Project and the International Terminal Project is available at the port's website www.portofnewport.com under Port Projects.

SCHEDULE OF EVENTS

08/04—US Coast Guard's 221st Birthday
08/10—Special Fishermen's Forum
8:30-9:30 a.m., Port Conference Room
08/13—Full Moon
08/20-21—NOAA MOC-P Dedication
Ceremony and Public Tours, 11:00 a.m.
08/20—OCCC Aquarium Science
Building Ribbon Cutting and Dedication,
Central County Campus, 2:00 p.m.
08/20-21—Wooden Boat Show, Port of Toledo,
Opens at 10:00 a.m.
08/23—Special Work Session, 12:00 p.m.
Regular Monthly Meeting, 6:00 p.m.
Both meetings in the Port Conference Room

Seventh Annual • August 20-21, 2011
WOODEN BOAT SHOW

Coastal Classics - Working through the Decades
New and Vintage Wooden Boats • Family Boat Building • Educational Exhibits • Poker Paddle
Yaquina Run-Off Boat Race • Kids Activities, on land and water • Toy Boat-Building
Maritime Artists and Vendors • Live Music • Food • Free Admission and lots more!

WEST COAST BANK
ENGLUND MARINE & INDUSTRIAL SUPPLY
BOAT LIFE

Registration forms and event info visit: www.portoftoledo.org or call 541-336-5207.

Report from the Shipping Terminal

Thirty-one fishing vessels used the terminal dock during the month of July. That number is down from 87 vessels in July of 2010.

Foulweather Trawl has been making repairs to whiting nets and building new cod ends.

J. Lamb Marine Electric is installing new wiring in F/V Last Straw's new wheel house and working on F/V Pacific Storm.

The Trident Meal Plant is up and running with the Alaska fleet back in town.

The MidCoast Watersheds Council (MCWC) recently raised concerns about marine debris along the shoreline at McLean Point. The debris consisted mostly of nylon rope fragments and floats. A tour of the area was conducted on August 1 by Port Commissioner JoAnn Barton, Sara and John Skamser of Foulweather Trawl, and Wayne Hoffman and Lisa Mulcahy from MCWC. It was determined that the rope fragments were likely from recreational crab traps. Consideration is being given to placing additional dumpsters in the area and launching an educational campaign focused on protecting the waters of Yaquina Bay by expanding the Port's program for proper disposal of marine debris.

The North Side

In addition to regular daily and weekly duties, the north side operations crew dealt with six small fuel and oil spills over the last month and repeatedly pumped out a fishing vessel until the owner arrived to make repairs. The crew also assisted fish buyers at the hoist dock and helped the local fleet with salmon, tuna, and long line gear

The 79-foot research vessel Zephyr spent five days at Swede’s Dock in July. R/V Zephyr is from the Monterey Bay Aquarium Research Institute.

Three engineering firms have submitted estimates ranging from \$3,500-\$11,125 on the Port Dock 5 header and gangway repair project. No problems are anticipated with the project, except possibly the timing. The in-water work window starts in November, so discussions are ongoing about ways to avoid shutting down the Port Dock 5 ramp during crab season.

The Fishermen’s Forum meeting on August 10 will be a follow up to the meeting in June to continue discussions with local fish buyers. General Manager Don Mann and Commissioner Dean Fleck will attend to further discuss options for the use of the Port Dock 7 area for offloading product. Other topics will include Port Dock 5 repairs and abandoned and derelict vessels. The meeting will start at 8:30 a.m. in the Port Conference Room. Coffee and donuts will be provided.

The South Side

Returning groups kept the Marina RV Park busy through the month of July. Several of the groups enjoyed the use of the Activity Room during their stay.

The South Beach maintenance crew continues to field calls about free sand from the pile at the NOAA site, in addition to maintaining the RV Park grounds and directing traffic. Harbormaster Chris Urbach and General Manager Don Mann recently met with a group of fish filleters to discuss options for use of the fish cleaning tables at the marina. It was a good first meeting and more discussions will follow.

The Oregon Tuna Classic Fishing Tournament kicked off at the South Beach Marina on July 23. Nineteen teams of five were able to make it out and brought back five fish each. The overall weight for first place was 101 pounds (total weight for five fish); second place came in at 100 pounds; and third place at 98 pounds. Proceeds from the tournament benefit local food banks, the Oregon Food Bank, and Ducks Unlimited.

There is a halibut opener scheduled for August 18-20. Call the South Beach Marina at 541-867-3321 for information or reservations.

Preventing terrorism and crime in general is a community effort. Police cannot do this alone and need everyone’s help. By learning what to look for, you can make a positive contribution towards making our community a safer place to live. What can you do?

- ✓ Report vehicles parked in unusual places.
- ✓ Watch for people and behavior that seems out of place.
- ✓ Make note of suspicious statements, individuals, and/or vehicles.
- ✓ If something seems wrong to you, it may very well be. Don’t hesitate. Notify us if you feel something is wrong.

In an emergency or life threatening situation, always call 911.

Non-emergency dispatch: 541-265-4231; Port Security 24/7: 541-574-2828

Do not jeopardize your safety or the safety of others. If you think something is suspicious, report it. –TCB Security Services
